80

USAGE

Extra coarse grit. Ideal for removing thick layers of acrylic, hard gel, or polygel. Not suitable for natural nails.

100

Coarse grit. Suitable for shaping and shortening artificial nails. Not recommended for natural nails.

150

Medium-coarse grit. Used for refining and shaping artificial nails. May be too aggressive for natural nails.

180

Medium grit. Universal option for prepping natural nails before applying products and for light filing of artificial nails.

220

Medium-fine grit. Used for gentle filing of short natural nails.

NAIL BASES & FILES

BANAN - S

SIZE: 155 X 25 MM

Two working sides

The compact Size S is an ideal choice for professionals with smaller hands or for reducing hand fatigue during extended sessions.

FOR PRECISE SHAPING OF LONG OR EXTENDED NAILS

A compact, curved file designed specifically for technicians with a smaller finger grip. The reduced Size S format ensures a comfortable hold, better control, and precise filing during detailed work.

Recommended:

- Use with soft files for delicate, controlled work
- Ideal thickness — 2 mm: comfortable grip, balanced stiffness, no hand strain

MAXI

SIZE: 160 X 18 MM

Two working sides

A UNIVERSAL 2-IN-1 SOLUTION FOR PROFESSIONAL USE

The Maxi base is designed for maximum convenience and efficiency. **It features a dual-sided working surface:** one side holds a replaceable abrasive (file), while the other is suitable for attaching a soft buffer. This allows nail technicians to seamlessly switch between filing and smoothing without changing tools.

Key Benefits:

- Universal: suitable for all nail types
- Comfortable ergonomic grip
- Saves time by combining two steps in one tool

- Dual-sided design:

Side 1 - for attachable files of various grit levels

Side 2 - for buffer surface (for polishing or mattifying)

MINI

SIZE: 135 X 15 MM

Two working sides

COMPACT SHAPE FOR PRECISE WORK AND FULL CONTROL

The Mini base is the perfect tool for technicians who value precision. Its shortened length provides a comfortable grip, especially for professionals with smaller hands or shorter fingers. The Mini format allows for better control and pressure management, reducing hand strain during long sessions.

Key Benefits:

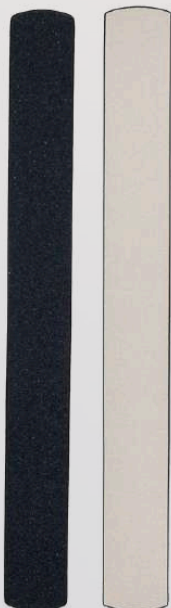

- Compact and lightweight — minimizes hand fatigue
- Ideal for detailed movements and hard-to-reach areas
- Perfect for short nails
- Great for mobile technicians or use in tight workspaces

MATERIALS

*Custom branding and set configuration available on request.

NAIL BASES & FILES

MOON

SIZE: 135 X 15 MM

Two working sides

COMPACT SHAPE FOR PRECISE WORK AND FULL CONTROL

The Moon base is designed for use with disposable buffer stickers, providing convenience and hygiene for professional nail technicians. Its ergonomic shape allows for easy treatment of the nail plate, especially around the cuticle area and sidewalls.

Key Benefits:

- **Ergonomic shape:** The moon curve ensures a comfortable grip and precise movements.
- **Hygienic:** Disposable buffers provide high sanitation standards with individual use for each client.
- **Cost-effective:** Only the abrasive surface is replaced, reducing tool costs and waste.
- **Durable:** Made of strong material resistant to repeated disinfection and sterilization.
